Dear Sir/Madam,

I note you willfully neglected to respond to my previous two request emails although received, for a family home visit for my brother, denying him and us of our rights.

As such, I suggest that you liaise between H [REDACTED] house and me to arrange a family home visit on 5th March February 2017.

Arrival time for this visit to be [REDACTED] pm, with a departure time of [REDACTED] pm.

I request confirmation of the above via email from your organisation within 24 hours of receiving.

The document named "H [REDACTED] House family home visit restrictions.pdf," previously sent, remains in effect and until further notice.

I suggest that my brother's rights not be denied, neglected or restricted and that abuse of the DoLS order does not occur. Further, he should not be treated less favourably than other residents where arrangements and transport for family home visits are required.

I look forward to your early reply.

Sincerely

C [REDACTED] B [REDACTED]
